To Whom It May Concern:

I oppose the Draft Memorandum being proposed by the FDA. In particular, I object to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary Compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

My grandfather, and three of my uncles were pharmacists, and some of their best prescriptions were compounded. The only reason I can see for this to be considered by the FDA is to again promote more business for the large drug companies. I sincerely hope you don't go forward with this plan of restriction, because there will be a large hew and cry from many people to their legislators, the President, and the news media. These compounded prescriptions are medically necessary for many people.

Sincerely yours,

Elna Rae Zeilinger
